

# Grace Goudreau

## Senior UX Designer

Chicago, IL | 331.222.6175 | goudreaugrace@gmail.com | GraceGoudreau.com

## Summary

Senior UX Designer for enterprise AI, planning, and operations products. I partner with product, engineering, and Google Cloud UX to turn ambiguous workflow problems into tools teams can inspect, trust, and adopt. Work ranges from shipped production products to user-tested prototypes and time-boxed POCs, each labeled for what it actually is.

## Experience

### Senior UX Designer - PepsiCo

Apr 2026 - Present

- **Scoping Pro:** Lead UX for Scoping Pro, a scenario modeling workspace, in partnership with Google Cloud UX. Shipped to production; location-level planning time moved from ~3 days to under 1 hour.
- **ATLAS:** Led UX strategy and a 3-week proof-of-concept for a negotiation-support concept, delivering a working prototype, product thesis, and roadmap. Not a shipped production product.
- **Content Operations Agent:** Designed and built a proof-of-value prototype with 9 users. A Canada pilot has been proposed; funding has not been decided. Not integrated into myPepsiCo.

### UX Designer - PepsiCo

Jul 2024 - Apr 2026

- **PEP Order Engine:** Core UX designer for the order workspace covering intake through SAP confirmation. v1.0 shipped January 28, 2026 for PFNA FSV customers.
  - **Workflow design:** Replaced fragmented email, fax, and PDF intake with a guided, trackable workflow so operations teams can see order status in one place.
  - **Collaboration:** Partnered with product owners, engineering, and business stakeholders to translate operational constraints into a usable interface.
- 

## Product Design Intern - West Monroe

May 2023 - Aug 2023

- **Consulting & Delivery:** Translated diverse user needs, client business goals, and technical infrastructure constraints into production-ready design solutions across multiple client engagements.

## Projects & Leadership

- **Open-Source AI Workflow Architecture (Figma & Dev Mode Integration):** Built and publicly shared an end-to-end POC demonstrating the AI-first design workflow - a working argument for designing experiences over screens.
- **AI Workflow Enablement:** Delivered multiple presentations to UX designers and developers on integrating AI into team workflows, showing how AI-assisted design and build accelerate iteration, reduce design-to-development friction, and increase team efficiency.
- **Thought Leadership:** Ongoing LinkedIn writing on the "Design Thinking Era," documenting firsthand AI workflow experiments and the shift toward designing experiences over screens.

## Skills

Design

Product Design, UX Strategy, AI Interaction Design, Design Systems, Enterprise Software Architecture, Service Design, User Research, Information Architecture, AI Prototyping

## AI & Build

Figma Make, Figma MCP / Dev Mode, Cursor, Codex, Claude Code, Claude Cowork

## Collaboration

Executive Stakeholder Management, Cross-Functional Leadership, Engineering Enablement

# Education

Purdue University | B.S. in UX Design

Aug 2020 - May 2024
